DELIVERY STRATEGY

ABUYA GROUP believe in the delivery of work and services using the Work Breakdown Structure (WBS) strategy. The assignment at hand is broken down into smaller deliverables to be executed and managed by professionals in the respective units. Officers responsible for completing the various work items as well as those accountable for ensuring task completion/sign off are identified and assigned.

Samples are provided for the supply of goods in accordance with the specifications provided by the clients. Goods delivered are jointly inspected by client and ABUYA GROUP to ensure compatibility with client's requirements.

It is the responsibility of ABUYA GROUP to supervise its personnel assigned to undertake the task to ensure that the proposed services are properly executed.

MONITORING, REPORTING AND EVALUATION

Evaluation will be done to ensure that performance on the contract is in line with specified deliverables. This will be done by:

Periodic monitoring by Proprietor of Abuya Group

Monitoring by management of the said Organization or Company

Weekly reporting by immediate supervisors. The report will contain among others the reporting period, personnel on duty and personnel absent, major events/incidence during the period, etc.

Review of report by management.
